**About the Sturbridge Build:** Located at 226 Cedar Street, this home will provide access to the amenities of this historic town, including a strong school system, vibrant business community, parks, and easy access to interstate 84 and the Mass Pike. Once complete, this single-family home will empower a local family to build strength and stability through affordable homeownership. **Teams of 10-12 will build 8:30-4PM and work is likely to be outdoors. (Note in event of heavy rain, the date will be rescheduled).**

**About the Worcester Build:** Located on Harrison Street in the Union Hill neighborhood of Worcester, these homes will provide access to neighborhood amenities including restaurants, churches, schools, a senior center, and the new Polar Park. Once complete, three attached single-family homes will empower three local families to build strength and stability through affordable homeownership. **Work is likely to be indoors and a full team will break into split shifts of 4-6 people per shift. Shifts include morning (8:30-Noon) and afternoon (12:30PM – 4PM).**
