**Endless Energy Home Services to Volunteer at Habitat's Affordable Home Build
To Donate and Install High-Efficiency Mini-Split Heating/Cooling Systems**

**521-523 Sunderland Rd., Worcester, MA
Friday, March 15th
8:30 AM to 4:30 PM**

Endless Energy Home Services, based in Marlborough, MA, is **donating and installing** mini-split heating/cooling systems for our affordable home builds located at 521 and 523 Sunderland in Worcester. These are high-efficiency systems and do not use fossil fuels, rather all electric heating and cooling. The technology has become advanced, and the units will generate heat even with temps down to -5 F.

Their team will be on-site at our 521-523 Sunderland Road, Worcester affordable home build on Friday, March 15th from about 8:30 AM to 4:00 PM volunteering not only their time to install the system, but the donation of the mini-split system, as well.

“Every donation to support our home builds is critical, and with this generous donation, Endless Energy helps us to build more affordable homes for local families and veterans. We are so grateful for their generosity”. – Deborah Huegel, VP of Philanthropy

Our mission is to build homes, communities and hope for local families and veterans in 42 cities and towns throughout Greater Worcester and MetroWest. Under the motto of “a hand up, not a handout,” we build houses with families rather than for them. Partner families must contribute 400 to 500 hours of sweat equity building their homes and learn skills to become successful homeowners. They also pay back an affordable mortgage, based on their income.

Visit www.habitatmwqw.org for more information. Read more about the Sunderland Road home build here: <https://www.habitatmwqw.org/current-and-previous-builds/>. To learn more about the families we help, visit www.habitatmwqw.org/meet-our-homeowners/.
